Arab Gold

JUST DISCOVERED IN THE HOLY LAND

Reduced in Price

400 YEAR OLD GOLD COINS OF "SULEIMAN THE MAGNIFICENT . . ." REBUILDER OF JERUSALEM. OFFERED HERE FOR THE FIRST TIME AT SPECIAL LOW "HOARD PRICES"

The Moslems, like the ancient Jews, forbade the use of images in art . . . and therefore on their coins. Thus the coin inscriptions themselves, in beautiful calligraphy were both informative and beautiful. Arabic, like Hebrew, is written from right to left. Because certain characters may or may not be joined to their neighbors according to complex rules, and the fact that there are no capital forms of letters, the reading of these inscriptions is difficult to Western eyes. But no one can doubt their great artistry!

The Arab language did more than decorate their coins. When in the 7th and 8th centuries A.D., the Arab armies conquered territories stretching from the shores of the Atlantic (Spain) to Sind (Pakistan), they brought to the conquered peoples a unifying new religion . . . and a new language. The Arabic language was a principal factor in uniting these peoples, who otherwise differed widely in race, language and culture.

On a recent trip to the Holy Land, we were most fortunate in obtaining a small hoard of high quality gold coins minted in the Middle East by one of its most famous rulers — Suleiman the Magnificent (1520 — 1566). These gold coins, grading Very Fine or better, are about the diameter of a U.S. $2½ Gold Coin . . . but even though they are over 400 years old they are still priced at less than the U.S. Quarter Eagle!

Suleiman the Magnificent is particularly remembered because of his improvements to the Holy City of Jerusalem. Jerusalem had been wrested from the Arabs by the Ottoman Turks in 1517. It was made a province of the Ottoman Empire and remained as such up to World War I. Suleiman increased Jerusalem's supply of drinking water by repairing the aqueducts and erecting fountains. He overhauled the fortifications of the much fought-over city; the present wall together with the Damascus Gate and the famous Tower of David date from his rule. And Suleiman had the exterior walls of the Dome of the Rock decorated with marble and mosaics. His was virtully the only administration that made contributions to the Holy Land in the 400 year history of Turkish occupation!

The gold coins of Suleiman the Magnificent offer a unique combination of precious metal and historical importance. That they are still under-priced in today's hectic numismatic marketplace goes without saying. Here's your opportunity to acquire one or more at a very spcial "hoard price." But don't wait . . . judging from our past offers of hoard coins, these will sell out quickly at just $145.00 each or 2 for only $250.00.

Silver Dollar Acquisition Program

IT'S TIME FOR SOME DOWN TO EARTH WORDS ABOUT RARE COIN INVESTMENTS

Suddenly everyone seems to be selling rare coins as investments. And diamonds, art prints, etc. This is fine. But as the West's leading coin dealer for three generations (over half a century), we believe we can offer you much more than the Johnny come latelies.

Superior's staff of expert professional numismatists have earned the respect of collectors, investors and their peers throughout the industry in virtually every area of specialization . . . Ancient, World, United States rare coins and Currency, et al. **We have helped assemble some of the most important collections in the United States . . . and are ready to use these same resources in building your collection/investment portfolio, no matter what your budget is.**

Our philosophy is simple. Stay away from anything other than time-tested coins with a proven track record and a consistent history of being in demand. We will choose only those coins that collectors will eventually want when the time comes for you to sell. **And this leads us to suggest our new Brilliant Uncirculated Silver Dollar Acquisition Program.**

Why Silver Dollars

The .900 fine United States Silver Dollars, not minted since the 1930's, are the most popular coins with collectors, investors, and even the general public who used to enjoy giving them away as presents. . . when they still could be purchased from banks for a paper dollar! Each Silver Dollar contains 416 grams of pure silver, giving it a high intrinsic value. The Morgan Silver Dollars, minted from 1878 to 1921, and the Peace Silver Dollars, produced from 1921 to 1935 are all beautiful coins. . . particularly the Brilliant Uncirculated specimens which we strongly recommend for purchase.

Lastly, and perhaps most important, Silver Dollar mintages have felt the ravages of time. Under the Pittman Act of 1918, over 270 million Morgan Silver Dollars were melted by the government! **Fewer than 1 in 100 of those originally made have survived in the Brilliant Uncirculated condition that most collectors prize.**

Silver Dollars have shown amazing price appreciation, tripling in the past five years, with increases generally of 50% to 300%.

While past performance cannot give assurance of future trends, we strongly feel that Silver Dollars as a whole will continue to pace the numismatic market. And we are not alone.

In recent years, considerable serious research has delved into the Silver Dollar field. Out of such studies has emerged expert estimates of how many of the Silver Dollars minted 50 to 100 years ago have survived in Brilliant Uncirculated quality. According to the findings of one researcher, Les Fox, are summarized below:

Type	Original Mintage	Percentage Lost	Percent Surviving
			UNC Choice BU
Morgan	657 Million	78	2 0.2
Peace	191 Million	69	9 0.5

This means that perhaps as few as 2.5 million Morgan Dollars and less than one million Peace Dollars are extant in Choice Brilliant Uncirculated condition. By dividing the 2.5 million Morgan Dollars into the 98 different dates and mint-marks, one determines that the average number of choice pieces available per date is a minuscule 25,000! Similarly, for the short-lived Peace Dollar series, there is an estimated average of only 40,000 choice coins per date!

Is there any wonder then, that researcher Fox predicts across the board increases of over 200% in the next decade for choice Morgan Dollars, and over 400% for the Peace Dollars. Individual coins in both series carry projected price increases of as much as 1000% in just the next ten years!

Actually, based on recent market activity and world economic conditions we believe that these projections may prove to be on the conservative side.

THIS IS AN EXCLUSIVE OFFER!

No more than 100 new applicants will be accepted so that we can maintain the Superior standard. The staff of Superior will do everything in our power to insure your complete satisfaction. Otherwise we wouldn't deserve your business.
